MAUA BANK,
101-103 CALLE CANGALLO

The offices of this Bank having been removed to the above spacious building, in order to suit the increasing flow of business, the public is informed that the following transactions are carried on in currency and specie in this Bank:—

First—Bills and obligations with good signatures are discounted on conventional terms.

Second—Money is advanced on mercantile and other securities approved of by the Manager.

Third—Accounts current are opened with Merchants or other parties who may prefer depositing endorsed and transferable securities, against which they may draw up to an amount previously convened under conditions established for such class of operations.

Fourth—Money is received in account current, bearing interest from day of deposit, which is accumulated in favor of the parties every three months, the depositors being allowed to retire at any time, by means of cheques, part or the full amount at their wish, save when the quantity exceeds three hundred doubloons or one hundred thousand dollars currency, in which case forty-eight hours' previous notice is required to be given at the Treasury of the Bank.

Fifth—Bills or letters of credit are drawn and taken on Montevideo, Rosario, Sta Fé, Salto Oriental, Paysandu, Rio Janeiro, and other places in the Brazils, England and France, as also on other places, of which notice will be given hereafter.

Finally, the Bank undertakes and executes all legitimate transactions within the orbit of banking operations.

The establishment is always open from 10 a.m. till 3 p.m.

"LA ESTRELLA"
ARGENTINE COMPANY FOR INSURANCE AGAINST FIRE, AT FIXED PREMIUM.

CAPITAL, ... 2,000,000 HARD DOLLARS

[Sanctioned by Decree of National Government, October 24th, 1865. Also by the Provincial Executive, dated 23rd of same Month and Year.]

MANAGING COMMITTEE.

INSPECTOR
Guillermo Schnidher.

The Company Insures against Fire on very small Premiums. Every class of Buildings and Goods, whether private or industrial.

Goods in Customs Deposit may be likewise Insured.

Insurers in this Company contract no othe obligation than the payment of the stipulater Premium on the Policies, the Company being only responsible for such injuries as they may suffer from Fire.

Among the general conditions of the Policy, there is one of particular advantage to Mortgage Creditors.

The Company offers the following Rewards:—
$f.40 To the first Hose ready to lend assistance.
$f.20 To the second do. do.
$f.20 To the first pipe of water.
$f.4 To each of the five succeeding pipes
Which run to the Fire of any Edifice or Property Insured in THE ESTRELLA, on making known his choice of the Reward, or a Certificate issued by the Police authorities to such as shall have assisted at the mishap.

The Company will also give a Reward of $f.4 to whoever shall present themselves at their Office, to give Notice of any Fire within the Municipal

It being an admitted fact, that "Money makes money," the object of LA BIENHECHORA could not be better, since it opens a vast Savings Bank for the surplus or savings of the Public, so that, by the proper employment of these small gains, a moderate capital, or even annuity, may be secured in a short time. By this means a provident, though helpless, family can husband their small means, and, in the end, attain a competency.

It being proved that the accumulation of interest is the most powerful means of augmenting the capital, THE BIENHECHORA DEL PLATA—an Argentine Company, whose only investments are in the country—holds out to Subscribers greater advantages than any other Institution, by reason of all its dealings being in the River Plate, where are current as large interests as in any part of the world.

THE BIENHECHORA DEL PLATA receives Deposits of from Five Patacones per Annum up to any amount in Weekly, Monthly, or Yearly Instalments.

THE VARELA MISSION.

YESTERDAY, at 10 o'clock a.m., H.E. Dr. Mariano Varela, Argentine Minister of Foreign Affairs, left the Mole-head in the Port Captain's falua, for the steamer Goya, bound for Corrientes. The Mole was crowded with the friends of this distinguished gentleman, who accompanied him to the stairs. There was very little stir and bustle: a hearty "God-speed," and the boat pulled out in the stream.

The noiseless departure of H.E., and the fact that the successor of Dr. Rufino Elizalde should be the chosen man for a mission to Paraguay, affords a proof of the terrible mutability of Argentine affairs. We that have witnessed so many ovations on the Mole head—the departure of Gen. Mitre, the return of Flores, and such like, attended by all the display usual on such occasions—felt the true measure of the contrast, as we turned on our heel when Minister Varela left.

The last scene in the great Paraguayan drama had evidently begun—and yet who could tell what new actors might come on the boards before the curtain closed? If the secret wishes of the people's heart could be laid bare, with what unmeasured satisfaction would not our worthy friend, Dr. Varela, steam up the river!

Few indeed are those who deny him a hearty God-speed, and although we have but an obscure idea of the whole nature of his mission, sufficient we know to express a hope that it may be crowned with success.

If peace is but a dream and war our natural state, at least it must be said that cruelty is not a national characteristic. Argentines with all their faults, possess a frank, generous disposition, their political errors may be grave, but the hearts of the people are sound and persecution no matter under what form and how concealed by state policy, will ever meet with merited disapprobation. We all concur that the Paraguayan war has lasted too long. We all believe that whatever indignities we may have suffered at the hands of Lopez, his unfortunate countrymen have awfully expiated the offence. Paraguay is ruined, destroyed and desolate, for what earthly purpose therefore, save for miserable speculation motives, can the Allied powers persist in a campaign, where the enemy is hounded down, and as a last resort has taken to the woods.

So long as the free navigation of the rivers was the banner for which we fought, the object of the war was satisfactory, but the fall of Angostura, and the occupation of Asuncion, will achieve the purpose and open the river to Matto Grosso. Unless all the news that has come down to us within the last few days is grossly exaggerated, there is little reason to doubt that ere this the Allies have levelled Angostura, and are now quietly quartered in Asuncion, the moment has arrived therefore when the white flag should be hoisted, and peace proclaimed.

President Sarmiento has seized the proper moment to despatch his Minister to Paraguay, and it is to be hoped that the interests of provecdores and army contractors will not defeat the policy of the Argentine Government.

The economical and social condition of the Republic demands a cessation of hostilities. The new Government has the will and the desire to effect many excellent reforms; but has not the ability, so long as the revenue of the Nation is spent in soldier's boots and ammunition. As for Brazil, it is really melancholy to contemplate the position of that once prosperous nation, now saddled with an enormous debt, exchange fallen to a hitherto unknown figure, the country flooded with paper money, and the premium on gold each day rising.

If the terrible condition of Paraguay appeals to our sympathies and common humanity calls for a cessation of this merciless war, so also does the embarrassed state of the Allied powers demand immediate peace—or is our London contemporary right in saying that Englishmen preserve little interest in the question of peace with Paraguay, since it is obvious if the South American nations were not fighting in Paraguay they must necessarily be fighting elsewhere.

Verily, one would suppose that the happiness and prosperity of South America depended upon ceaseless war—for, since the discovery of the Continent to this hour South America has been one continuous battle-field; and such have been the endless ups and downs, that to this hour no historian has been found to narrate every battle fought, every victory won.

Let us trust that the Sarmiento Government is about to turn over a new leaf, and that peace at any cost will be the motto of his Administration. The very able and effective way in which he brought to a close the senseless fight in Corrientes, the equally energetic steps which he is adopting for the frontier defences, is a guarantee that in his efforts to bring the Paraguayan war to a close, he is solely influenced by the most sincere patriotism, and it is the earnest prayer of both Argentines and foreigners that the mission of Dr Varela may be crowned with success.

MONTEVIDEO.

December 14, 1868.

Buenos Ayres has no promenade at all compared to the Calle 18 de Julio of Montevideo. The pavements in the wide and beautiful street, and the trees on each side of it, extend out some ten or twelve squares to the English burying-ground, which is now a respectable and well-kept cemetery, the sight of which is very gratifying to one who recellects when it was a sort of wild, uncared-for desolate-looking place outside of creation. But now, I am told this cemetery is considered too near the centre of the population, and it is to be removed half a league further out to a site that fronts on the river called "Punta de Carretas," where a much larger piece of ground has been secured. It is supposed that when the cemetery shall be removed the ground that it now occupies will sell for over a hundred thousand patacons. With such a handsome fund a modern cemetery could be formed in the ground at the Punta de Carretas, with winding and shady walks fringed with grass, after the fashion of Mount Auburn and Greenwood Cemeteries.

I notice a great variety in the complexions of the ladies, as I saunter along the great promenade of Montedeo. Some have clear, rosy complexions, like a healthy, fair-haired, Anglo-Saxon child; others, still more beautiful—brunettes, with ripe, peach-coloured cheeks and jet-black hair and eyes. But many have pale or sallow complexions, and I notice that most of those who have such complexions put starch, or flour, or some white powder on their faces. These faulty complexions often belong to interesting young persons, who only require a healthy colour in order to be considered beautiful. Hereafter, when it shall be deemed as important to teach the first principles of physiology to young persons as it is now to teach them embroidery, the pale, and sallow complexions and powdered faces of the young will disappear from our promenades.

The dresses now used by ladies are even more inconvenient than the immense mirauaque used to be: long skirts that trail on the ground behind sweeping up all the dust of the pavements as they pass along. These trailing dresses must be annoying and inconvenient to the wearers: they are so I know to the male portion of the pedestrians in crowded thoroughfares.

The first unlucky moment that your eyes happen to be diverted from the necessary task of watching the lateral undulations of these trailing dresses, you may tread on the skirt of some passing beauty.

I greatly prefer the dresses of the young girls, who trip along joyous and happy as childhood, with their short and convenient dresses showing the nicely laced half boots that set off their tiny feet and well made ankles to advantage.

I see no good reason why their mamas and their elder sisters should not wear the same kind of dresses, and thus enjoy the same exemption from annoyance.

The new Government shin plasters have just made their appearance in the form of little square bits of coloured paper, some blue, some rose-colour, &c.; they are about two and a half inches each way, with a figure like a postage stamp in the centre, but without either number or signature to them.

The shoeblacks are enthusiastically in favour of them; instead of two vintens which they used to get, they now get the smallest Government shin plaster that is issued, which represents a "media," or two and a half vintens for polishing the understandings of their customers.

CANDARES.

December 16, 1868.

The decree of the Government which appeared yesterday morning, relative to the Italian Bank, has restored tranquility and confidence to the holders of notes of said bank. The panic that had seized commercial circles, might have been avoided, if people had recollected that the Italian Bank notes are fully guaranteed by the securities deposited in the keeping of the Fiscal Commission, appointed by the decree of 16th July. The Italian Bank liquidates, but its notes continue to represent their value. The following are the provisions of the decree:—

1. The Bank Fiscal Commission is authorized to proceed to the liquidation of the Italian Bank and of any other that should suspend its operations, or not comply with the provisions of the decree of 16th July, and to this end, it shall take possession of all the property, books, and documents belonging to the Bank, taking a corresponding inventory, and shall realize the securities necessary for the withdrawal from circulation, with the shortest possible delay, of all the notes of emission of said bank.

The heat has been terrible for the last few days, and Buceo sur Mer is enlivened by the numerous bathers that seek relief in the briny waves of the Atlantic.

Wools continue to arrive in great quantities. A sale of 5,000 arrobas of mestiza, second class, was sold to-day at 2$80 with conditions, and 1,000 fine first class at 3$ ditto.

2. The notes of the bank in liquidation, being once redeemed, the interference of the Commission will cease, and it shall hand to the Juzgado de Comercio the balance that remains, for the benefit of the creditors and shareholders of the Bank.

3. The notes of the Italian Bank, as well as those of any other bank in liquidation, whose conversion is guaranteed by the Nation, shall continue to be legal tender, according to the provisions of the decree of 16th July above alluded to.

4. The Manager and Directors of banks declared to be in liquidation cannot absent themselves from the country during the liquidation entrusted to the Fiscal Commission, and are under the obligation of furnishing all data and antecedents relative to the affairs of the bank.

5. Whenever the Commission should deem it necessary to take legal steps, it will communicate the same to the Attorney General.

6. The commission may keep on the employés of the Bank in liquidation which are wanted, being authorized to incur all indispensable expenses and on the conclusion of its trust will give a detailed account to Government of its operations.

All the papers the 'Sigło' included unanimously approve of this decided step of the Government, which by its resolution to carry out to the letter the decree of the 16th July irrespective of private or party considerations, has rescued the country from an imminent commercial and monetary crisis.

The 20th of next month has been fixed for holding a literary conference in the Atheneum of this city. This day has been chosen as being the anniversary of the battle of Ituzaingo and efforts will not be spared to give the greatest possible eclat to this intellectual festival.

The new Zarzuela Company brought out by Mr Gambia that arrived here two days ago in the Ptolemy, have published in the local papers the following flattering testimonial to Capt. Ellis, her commander:

"The individuals forming the Spanish Zarzuela Company, who salute to-day with effusion the hospitable inhabitants of Montevideo, would omit a duty of gratitude if they did not give a public testimony of their high regard and sincere sympathy for William Henry Ellis, commander of the Ptolemy, who by his unceasing attentions, affable manners, and untiring anxiety to please us, has spared no means to render more bearable the tediousness of a long voyage.

"The undersigned, in bidding farewell to Captain Ellis and to the officers under his command, assure them that they will ever preserve a most pleasing and lively remembrance of such distinguished and worthy gentlemen."

The 'personel' of the new company is said to be complete, and they will make their début in the course of this week. The name of the first piece they will give has not yet been given out, but I understand it is to be one of the newest that has been produced with great success in the Peninsula.

The Favorita was given in Solis on Saturday and Sunday. Mme. Zacconi in the part of Leonora was greatly applauded, particularly on the second night, when the whole performance went off much better than on the previous one.

The bull-fight next Sunday promises to be more exciting than any we have had hitherto, as some excellent animals have been brought from afar expressly for the bull ring.

EDITOR'S TABLE.

The Copernicus arrived in port yesterday at an early hour, but her passengers and mails were not landed till late in the day. She sailed from Liverpool on the 12th November, Lisbon 17th ditto, and Rio Janeiro 9th inst. Her news from Europe have therefore been anticipated by the Pacific. The list of passengers will be found in another column.

The Postmaster-General has just published the statistics of his department for last month. Received—83,683 letters, 48,320 packages of printed matter, and 3,087 official despatches. Despatched—56,002 letters to 880 different places, 48,050 packages of printed matter, and 1,443 official despatches. Total of receipts, $200,476 m|c., or $18,019.

From Rosario we hear of nothing new. Very little shipping in port. A Norwegian brig is loading "jerked beef" at the saladero 11 de Setiembre for Havanah. The new railway terminus is making daily progress, and its brick walls are the admiration of the natives, who, on passing by, exclaim "Que ladrillos lindos!" The London and River Plate Bank appears to be doing all the banking business of Rosario. As for the Commercial Bank, its doors are still closed—and 'quien sabe' when they will be opened again? Great praise is lavished on the luxurious and comfortable style in which the Café de Paris has been repaired since the fire in the theatre that did it so much injury—it is now the favorite and most fashionable lounge of the Rosarinos.

Mr. Santiago Estrada has been appointed Secretary to the Argentine Legation in Chile, under Mr. Felix Frias. It is a most appropriate appointment, and while congratulating our talented friend, we are happy to think that he will worthily respond to the distinction of which he has been the object.

Among the passengers that left yesterday in the City of Brussels was Sir Roger Tichbourne Bart., who favored us with a p.p.c. visit, and accepted from us as a parting memento a piece of the celebrated Humaitá chain, and a paddle of the great Paraguayan canoe that boarded the ironclads.

Mr. Posadas and Maxwell have each addressed to Minister of Instruction a note, accepting the appointment of Commissioners for the great Cordova Exhibition.

In future the Argentine soldiers in Paraguay, will be paid in Buenos Ayres, paper currency at the request of the officers of the army at present there.

We are happy to see that the news we alluded to yesterday, of the capture by the Indians of Mr. Nathan and his family, is contradicted by our worthy colleague the 'Nacional' stating that said news originated in a false rumour, and that letters have been received in Rosario, from them dated Mendoza. There was a rumour also that Mr. Klappenbach and his family, had fallen into the hands of the Indians, but our San Juan correspondent, has already relieved our readers' anxiety on their account by stating that they had safely arrived in San Juan, after a hairs-breadth escape.

The Provincial Minister of Finance has received a proposal for the construction of a railway between Lujan and Rosario, connecting the Western with the Central Railway. The contractors only ask for a subsidy, at the rate of £500 per mile, from the Government. The *Tribuna*, in alluding to the subject, supports very warmly the proposed railway, and points out the great advantages that would accrue from its realization. Our colleague even goes so far as to recommend, that a general law should be passed, offering on the part of the Government, £500 per mile to all railroads that may be constructed in future.

Mr Worthington only yesterday received some official despatches from General M'Mahon from Corrientes brought down by the Italian gunboat Ardita, which came into port on Saturday last and left same day, some suppose for Montevideo, although her arrival there is not yet reported. She had on board several Italians formerly residents in Paraguay.

On Wednesday, at about 9 p.m., the news spread like wildfire in the Alcazar that Dr Raynaud, the doctor of the establishment, had been shot in his own house by a lady, and the report was unfortunately found to be true. He was sitting in his study when a lady, with whom he had had some acquaintance, was ushered in, and walking deliberately up to the sofa on which he was sitting, fired at him with a pistol, the ball entering the abdomen and lodging in the spine. After this she coolly walked out of the house. Although the wound is very dangerous, strong hopes are entertained of saving Dr Raynaud's life The culprit, who is said to be a person belonging to the class of respectable bourgeoisie, and whose name is well known, was at large yesterday, and seen driving about the streets in a carriage.

Mr. William Thompson's numerous friends in the River Plate will be glad to hear that by last accounts, he was progressing favorably in his recovery from the accident he met with in being thrown from his carriage.

No steamer arrived yesterday from the North to allay the great anxiety felt as to the further result of the late sanguinary engagements in Paraguay.

The London papers contain a report of the annual meeting of the Royal Mail Steam Packet Company, in which all residents in these countries must take a lively interest. The Government contract it appears is to continue until 1874. The report was very unsatisfactory. Owing to losses by hurricanes, earthquakes, pestilence, and ordinary disasters, the dividend, which had been gradually diminishing for the last two or three years, has this year disappeared altogether. The Directors however carried their point of continuing the Company, and give hopes of an early improvement in its prospects. They have recently added a noble vessel, the Neva, to their fleet, and a Southampton firm, Messrs. Day & Co., have contracted to build another on the same lines.

We cannot allow our readers to forget that yesterday was the anniversary of the revolution, when an incompetent Municipality were all but thrown out of the windows of their council room. What has been done to prepare for another visitation of cholera? The Recoleta water-works are the only result of the warning we have received. Buenos Ayres is still the beastliest city in America; the foully impregnated dust lies thick on the ragged pavements; the smells are as stupendous as of yore; the conditions for the breeding of fever and dysentery are as lively as ever.

Minister Varela left yesterday morning at 10 a.m. for Paraguay. The precise nature of his mission is not known and we believe the guesses that are made are far from hitting the mark. A large crowd of people was on the mole to see him go off to the Goya.

The plans of a large iron tank for the Water Works, which is on its way out from England, have been received. It is 100 feet high, and it costs £2,500.

A Snider rifle, which originally could not have cost less than £30, was sold in the streets yesterday to a "Standard" subscriber for 700 paper dollars.

Among the passengers that embarked on board the City of Brussels was a young live lion, entrusted to the care of Captain Haddock. We trust he will not make himself disagreeable to his 'companions de voyage.'

We salute Mr. Jones, who arrived yesterday in the Copernicus, and who will shortly open an Apothecary and Druggist store in Calle Florida.

Mr. HUTCHINSON'S NEW BOOK.*

It requires some cleverness to make even a bad book out of plenty of materials. That Mr. Consul Hutchinson, who has already given to the world one good book of Argentine gleanings, could find stuff enough for another, is creditable to the author's sagacity and observation, as well as to the mine of interest the past and present of this wonderful and progressive country enfolds. The imagination is supposed to be never weary of that glorious panorama the discovery of America. The muddy but sun-lit waters of the Plate, ruffled by the galleys of a Cabot or Solis, is a very stale picture, but we have to make up our minds to look at it over and over again. It is painful to think how often we have to be told who it was that founded Buenos Ayres, or Asuncion; and with what difficulty such names as the Puelches or Pehuenches get in at one ear,, or if they do succeed how soon they go out at the other. How little do we, who are engaged in active life in Buenos Ayres, yet know of the ethnology of our adopted country, or of the habits of the aborigines.

Mr. Hutchinson tells us that the Agintequédechaga females fastened their ears by cicatrices to the occiput. How few mothers of families know that; and how many would hesitate before communicating the information to their daughters, innocent as the phrase is. We therefore welcome with pleasure every fresh concoction of facts, figures, and romance connected with this country.

Though the literary horizon be charged with books on the Plata and its affluents, there is a reading stomach for them all. We do not expect anything very new, and Mr. Hutchinson is the last man in the world to go out of the beaten track in search of the sensational, or to affect novelty in treatment or materials. The very title of his work, which occupies nearly half a page, indicates at once that it consists of transcripts of memoranda jotted down, as they turn up in his portfolio.

As one of the many worshippers of externals, he would despise the genius which alone can work up materials into a symmetrical and artistic whole. What would really be new and interesting in a work on these countries would be a disquisition on its political hopes, with a lively but searching analysis of the manners and morals of society. This would require in the author not only great talent, but a long residence and intimate acquaintance with the native character,—conditions of success not likely to be soon realized.

Mr. Hutchinson, however, knows that the first wants of the country, as well as the first aims of the public for which he writes, are material. He, therefore, wisely mixes with the oft-repeated and, we must say, necessary twaddle, on the habits of the men and beasts of the Pampas, some excellent and useful chapters on immigration, on the descriptions and results of colonial schemes, on the land laws ruling in the several provinces, on taxation, on the various practicable routes and passes across the Andes, and other matters important to settlers and travellers. If he inserts a chapter on commercial statistics and customs returns, which is of little use to well-informed mercantile men, and will certainly not be read with edification by anyone else, he does so in obedience to one of the silly hypocrisies of the age, when small people earn credit for serious-mindedness, by affecting a love of figures and dry facts.

Mr. Hutchinson's specialities, as a member of several scientific and philosophical institutions, give additional value to his remarks on the idioms and races of this part of the American continent; and, perhaps, the chapters on those subjects have the most general interest of any in the book. He is a believer in the polygenetic origin of man, and kindly separates us from all cousinship with the black, brown, or red varieties, and sees no future for the latter but extermination, in which opinion the events of past and contemporary history will support him.

Of the chapters containing matter of local and temporary interest, we must single out his sketch of the history of the Paraguayan War. With a kindly leaning towards the weaker side, we think his views, on the whole, impartial. His own prophecies, which as prophecies go, have turned out tolerably successful, he reproduces with evident satisfaction; but we must object to his dubbing the side of the Allies as the "popular side," so as to raise himself to the elevation of one among a cultivated and prescient minority.

The truth is, that putting out of the question the combatants themselves, the "popular side" among the neutrals, is undoubtedly that of Lopez, whose backers and bottle-holders are the same lot who, led more by animal impulse than by cool reasoning, backed Southerners against the Northern States of America, and the Austrians against the Prussians. If Mr. Hutchinson thinks the cry, twelve months ago, "that the Paraguayans were exhausted," "savored of bosh," it may on the other hand be doubted, if the circumstances which have occurred since, have not proved their exhaustion, notwithstanding the slow progress made in the miserably conducted military operations of the Allies.

Mr. Hutchinson concludes his work, with a just tribute of praise to the improvement of Montevideo; and recounting his wanderings in the Banda Oriental, he immortalizes the names of many "mutual friends," whose hospitalities he enjoyed.

We have no doubt that the new book will have a large sale, and in the prospect of several editions being called for, we should recommend the revisal of the orthography, as in some instances the errors can scarcely be misprints. The Indian toldo is invariably spelt tolda; and the official journal of Paraguay is peristently written Seminario. The illustrations in the work include an excellent portrait of the indefatigable author; and a very flattering one of General Lopez. The remainder are well chosen and well engraved.

LATEST FROM BRAZIL.

A decree has been issued, extending to the end of 1869 the permission conceded to Foreign vessels to engage in transport between Brazilian ports possessing custom houses.

The treaty of limits, navigation and extradition between Brazil and Bolivia has ben promulgated, and will be found epitomized in another part.

A statement has been issued, showing the condition, on November 30, of the national funded debts, the national paper currency and the treasury bills, together with the remittances, and drafts paid by the treasury. This statement will be found on page first.

The new bronze coinage is expected to be issued in January next.

Sr. Netto and Conselheiro Amaral have returned from their respective missions to Bolivia and the River Plate.

The gross revenue of the D. Pedro II railway during the month of November shows an increase of 38:387$, or nearly 16 per cent. over the same month of 1867.

The Liberal Centre of Rio has issued a circular to all its affiliations, recommending complete abstention from elections, for deputies to the General Assembly, which will take place at the end of January next.

It is asserted that, in compliance with the repeated urgent requisition of Marshal Caxias, the government is determined on the immediate formation of another army corps numbering 15,000 men, and that, as the ordinary means prove to be inadequate recourse will be taken to the extraordinary measure of suspending the guarantees, that is, disregarding the exemptions from "recruitment."

The principal bankers and merchants of Rio have published a protest against the judgements of the Tribunal of Commerce, in the case of the bankrupts Brandão & Costa Rodrigues, deciding that the private creditors of a partner could prove equally, against the assets of the firm, with the creditors of the firm.

In Maranhão the British bark Ganges was wrecked at Tutoia on the 14th of November; on the coast of Rio Grande do Norte the Brazilian schooner Alice; and on the coast of Parahyba, the British bark Anne Powell, on the 18th. No lives are reported lost in any of these cases.

At Pernambuco the American whaler Wave had put in on the 12th, with yellow fever on board, and having lost the Captain, 2d mate, and a mariner.

The drought in Bahia continued at last accounts to flagellate the western districts of the province causing much loss and suffering.

The November returns of the Sau Paulo railway show the gross receipts of the month to have been 126:000$.

In Minas-Geraes steam navigation was initiated on the 14th of November, with a small steamer upon the Velhas, a navigable tributary of the San Francisco.

At Passagem the mining village had been scoured by a zealous police authority, and over forty men carried off as recruits.

On the coast of Paraná the Brazilian transport steamer S. Paulo has been lost, without sacrifice of life.

The inhabitants of Paraná were subscribing to extend the telegraph to the capital, Coritiba.

A large number of English immigrants have gone to the colonies of Parana, and some gentlemen of means purpose purchasing prairie estates in the same province, if satisfied with the result of the visit they are now making.

Earl Dundonald returns to England in the Oneida, after his third visit to Brazil to obtain satisfaction of the claims of his gallant father, who died in debt, living on money borrowed at an enormous interest, while Brazilian cabinets witheld the payment of their country's contract with him, as though they regretted the national independence which owed so much to Admiral Cochrane's bravery and exertions. But, although His Majesty said that justice should be done, and the ex-minister of finance declared, after perusing the documents, that Brazil remained disgraced until the claim was settled, the son of him who in all probability saved the Brazilian empire from collapse or division, is going home without the satisfaction he had reason to expect.

As usual, the devouring of Caxian campaigning leaves nothing for the rest.

A decree dated November 24, opens an extraordinary credit of 6,026,000$ to the ministry of marine, for the extraordinary expenses of eight months of of the present fiscal year, namely to March 1st 1869.

COMMERCIAL.

Exchange.—Although this is the shipping season from here, as also from the northern provinces, it has proved of no avail to prevent the downward tendency of exchange, the demand for bills being still greater than the supply, notwithstanding a slack import trade and a consequent diminution in remitances on that account.

The government has published a treasury statement showing that the amount paid in for gold bonds has not been applied to the reduction of the treasury bills but has been used for the current war expenses.

Banks have drawn at 16s. ⅜d, whilst private paper has been passed at 17 and 17⅛, and indeed, looking to the tenor of the accounts received from the seat of war, pointing to no immediate termination, it must be expected that a fall must go on.

The Commercial Bank, however, made a vain attempt to breast the fall and support the rate, but a few small takes caused it to withdraw, unless for trifling amounts.

A steady gradual decline, such as is going on at present, is only a natural symptom of augmenting dissatisfaction with the prospect of early relief to the financial difficulties of the treasury, by a cessation of the excessive demand upon it now going on.

Bank of Brazil Shares.—186$000.

Bonds.—Demand limited; last sales 74$000 premium.

Gold.—Large transactions at a steady advance to from 13$800 to 14$200.

THE LEADER MURDER.

We reproduce at foot a letter we received yesterday, from Sir Henry Leader, in hopes that it may have the effect of urging the Montevidean authorities, to exert themselves in bringing to justice the assassin of poor young Leader. The letter in question is worthy of the attention of our public men here, we can hope for no radical improvement in this country until murderers are brought to justice, and publicly executed on the gallows.

Clonmoyle Coachford, Nov. 7, 1868.

To the Editors of the "Standard."

Dear Sirs,

I will thank you to discontinue sending the "Standard" newspaper to me.

Since the murder of my dear son, which took place on the 22nd of last August, and which was perpetrated by a native in his employ, for the purpose of obtaining a sum of money then in his possession, my connection with the River Plate has forever ceased.

You will be glad to hear that I have received a promise from the Secretary for Foreign Affairs, that he will direct the Acting Chargé d'Affaires, at Mon-

tevideo, to make every exertion to have the assassin brought to justice and punished.

I can assure you, my sole motive in bringing the matter under the notice of our Government, is the hope that thereby the lives of British settlers in that blood-stained land may be rendered less insecure, and that the hope of obtaining revenge upon an ignorant peon, who, from the apathy with which his Government looks upon crimes, such as he has committed, must naturally consider murder a trivial affair, has not in the slightest degree influenced my conduct.

Please to let me have my account, and to make any use you like of this letter. I am, dear sirs,

Yours truly

HENRY LEADER.

FARMING PROSPECTS IN FRAILE MUERTO.

Wonderful is the progress of this district. Where a few years ago, three or four at most, there was scarcely a foreigner engaged, either in pastoral or agricultural pursuits, there are now upwards of 150 enterprising colonists tilling the soil in a regular and scientific manner.

To hard working denizens of your city, in search of health or much-required rest, what more pleasant trip is there than a run to these camps? Not more than sixty hours' journey from Buenos Ayres, including a night in Rosario.

Starting from the small and very irregularly-built town of Frayle Muerto (picturesquely situated on the banks of the Tercero), and taking a southerly direction, after an hour-and-a-half's gallop, we reach the Estancia Arbol Chato, the property of Mr. Robert A. Bell. There the visitors will find 150 acres of splendid wheat already whitening for the harvest; besides, a considerable portion of ground is being sown with maize, potatoes, &c. The chacra, which is being extended as more land is broken up, is enclosed by a strong wire fence. The implements used are of the most improved construction, and we saw an excellent grass-mower in full swing, made by Woods and Co., of London. Mr. Bell is in daily expectation of a 'stripper' from England, which, if it turns out a success, will save a vast amount of labor in gathering in the wheat crop These machines have been proved to be of the greatest utility in our Australian Colonies. Unless unfavorable weather should set in, previous to the ingathering of the wheat crop, a full average yield may be expected. Wheat imported from Scotland has been sown here, and now presents a fine appearance.

A league to the west of Arbol Chato, is the Estancia de Los Algarrobitas the owners of which, Messrs. Purdie, Paul, and King, have also gone into agriculture on a most extensive scale, there being upwards of 400 squares of ground fenced in and under crops of alfalfa, barley, maize, and wheat. Of the latter there are about 100 squares, in luxuriant condition. On this establishment, where everything is in perfect order, horses are used in preference to the bullocks. When visiting the hospitable owners, we were surprised to see so many fine plough and cart-horses, all carefully stabled, and as fat and sleek as any London dray horse but the kind and almost affectionate interest which the intelligent Scotch ploughmen took in their animals, soon accounted for their appearance. To see the work of those manly sons of Scotia, their beautiful, straight furrows, and their general capacity for whatever is in hand—is a treat. And it is to be hoped that other gentlemen may follow Messrs. Purdie & Co's example in bringing good men from home. In passing, we may remark that native pones, as a rule will scarcely work, even when good wages are offered to them; they prefer to lounge and idle about in the town. A few steady active Basques or Italians, not to speak of English labourers would meet with any amount of employment in these camps.

Away to the south of Algarrobitas are numerous settlers; 12 gentlemen just arrived from England have to be added to their number, all prosecuting agriculture with enterprise and success, while down on the banks of the Saladillo sheepfarming is extensively carried on, combined with the raising of crops. On Monte de Leña and Monte de Molino estancias there are magnificent runs for sheep, the grass down there being peculiarly adapted for that kind of stock, as well as for cattle.

All the camps here are good for cattle, but we cannot put them on in any number, because our friends the Indians would instantly sweep them off.

However, on all sides there are evidences of progress and improvement, and it is very satisfactory to know that men who, only two years ago, were about to abandon their lands and houses in despair and disgust, because our impotent Government could not or would not keep back a few hundred savages, have persevered, and that successfully, in their endeavors to start a new and hitherto untried industry. Such men deserve the gratitude of their fellows, in having done what a Government could not do,—civilized, pacified, and rendered secure a vast extent of territory, and that not by fire and sword, but by the more enduring arts of peace.

To the original settlers here, Messrs. Robert A. Bell, John Miller, Thomas Purdie, John Fairbairn, ——Severin, Sames H. Calder, we who have come after them owe a debt of gratitude, for their patience and fortitude under most trying circumstances. We all have much hope for the future of this district, which, whether for stock or for agriculture, presents many advantages.

If our new and able President will only secure the frontier from Indian raids, then thousands of cattle will be found grazing on our plains, where at present not a four-footed animal is to be seen.

THE SILK HUSBANDRY.

In the January number of the "Anales de la Sociedad Rural," are published some remarks I made upon improving the breed of silkworms. As I now perceive that the silk husbandry is likely to be carried on in this city, and as you have also stated that the Japanese worms live on the palma-christi tree (higuereta), I beg to submit to public discussion the following remarks tendering to you my best thanks, for your kind offer to publish, in your valuable paper, any of my unpretending writings.

I have already stated the proceedings of Mr. André Jean, for improving the breed of silkworms, but besides said proceedings, many others have been studied and thoroughly analysed and from all of them it follows, that with so many valuable and important documents, the time when silk husbandry will attain a high degree of prosperity, is not distant.

The Japanese worm, as you call it in your number of the 8th inst., is the 'Bombyx Cinthia,' a worm who lives on the palma-christi shrub (ricino ó higuereta), the produce of which are employed in India, from the remotest times, for the manufacturing of tissues and wearing apparel. All the European acclimatization Societies, decided to introduce the new breed of silkworms and it was M. Isidore Geoffroy Saint Hilaire, who in 1858, submitted to the imperial Accademy of Sciences in Paris, the results of his experiments.

In the Department of Alsace, in Berlin, in Neufchatel, in Brazil and other countries in America, the new husbandry took already a start, having sent soon afterwards to Paris a great number of cocoons. But a very serious difficulty arose, and it was how to wind them. Mr. Kaufman, a Prussian, resolved the problem showing also, that the 'Bombyx Cinthia,' does not snap the thread, as it was believed, each time that the worm shows himself on the opening of the cocoon by which he goes out, but that the silk coils on itself forming a very acute angle which renders easy its subsequent rupture.

It was likewise ascertained that the winding of the silk, for industrial purposes, was not always indispensable. Mr. Sacc of Neufchatel and Mr. Sumberger, a very skilful spinner of Alsace, obtained very fine samples of spinnings worked up with the 'Bombyx Cinthia' silk, prepared with a simple card.

From said experiments it follows the very important fact that there exists the possibility of increasing with great rapidity this new silk worm, in all the warm, and even in the temperate climates. In India the multiplication of the bombyx cinthia is so rapid, and its generations are so closely followed by each other, that it is not strange to obtain from six to seven crops in the year.

This worm has been reproduced in Europe in the very same way, and as a proof of it I may state that M. Vallée, an intelligent member of the Imperial Museum of Natural History of France, obtained with only three couples of them 25,000 eggs, which were distributed in Europe, and 4,000 cocoons.

The palma-christi tree, besides yielding the ricin oil from its seeds, produces also the sebacic acid, and as its fusion point is very high it can be advantageously employed in the manufacture of wax candles, and if melted with the stearic acid, it produces a very white and hard substance which resembles porcelain.

The caprolic alcohol is another substance which can easily be obtained from the palma-christi tree, and which may be usefully employed as a varnish.

These and some others are the applications of the palma-christi tree, which were more specially made known since the sickness of the silkworms, urged to study some new proceeding for cultivating other kinds of vegetables for the production of silk.

I should wish to see some experiments made to cultivate, on a large scale, such a valuable tree, and that it may be used for the different purposes I have mentioned.

ON 'CHANGE.

December, 17th 1868.

Ounces	400
Sovereigns	19½
Patacons	95
National Bonds	50½

There was a decided reaction in the bond market to-day, prices opened at 50½, and the bulls toiled hard to keep the market up, buying everything offered until prices touched 51, but sellers were found on all sides, and before the closing hour prices receded to 50½, at which they closed, one broker sold over 200,000 bonds; this heavy sale greatly shook the market. At afterhours however, prices again stiffened. The great speculation is for the end of the month, prices for that date opened at 50⅝, rose to 51, and finally closed at 50⅜. The sales for the 31st December, amounted to 303,000 whilst at after hours the sales for the same date even exceeded this amount.

The bond market to-day, was extremely feverish, nearly all who had bought at 45, and 47, sold out to-day, realizing a very handsome profit. Bonds have changed hands greatly, and owing to the very easy strte of the money market, even speculative purchasers find little difficulty in carrying bonds. A good deal of money was taken up to-day for this purpose, the bonds taken at a valuation of 45, and the interest rate charged from 10 to 12 per cent.

Exchange for the packet has at last opened. The first bills passed were done at 49⅞, and on credit at 49¾, but to-day the rate went up slightly, and bills were done at 50d.

The non arrival of a steamer from Paraguay has caused much concern on Change, immense interest is attached to the next news from the army, as it is believed if Angostura is taken the war is virtually over. Hay and army fodder fell off sensibly in price to day and will probably yet fall lower, the stock on hand is not large yet the present fall in price will cause very serious losses, even in Bolsa circles.

The City of Brussels leaves this evening. She takes a full cargo and a good list of passengers.

There is much said about the negotiation of the Home Debt in England, and Mr. Russell Shaw's letter has attracted attention. We learn from one of the principal bond brokers that now the presentation of Bonds each quarter is unnecessary. All that is required is, that parties presenting Coupons for collection should make out a list of the members, and affix their signature thereto as a guarantee to the Government.

In the wool market there is still great activity, although inferior wools are down some $2. Mr. Patrick Prendergrast's wool, 900 ar. was sold yesterday at 66. Our reporter gives the following:—

FIX THIS FACT IN YOUR MIND that the acknowledged purity of LANMAN AND KEMP'S COD-LIVER OIL places it immeasurably above rivalry in the markets of the world, This is a matter of paramount importance to invalids. As a means of curing deep-seated cough, of healing inflamed and tuberculated lungs, of arresting degeneration of the liver, of relieving bronchial affections, of clothing the emaciated form with healthy flesh, and restoring the strength and soundness of the vital system, there is no medicine known to science that has worked such wonders. The just reputation of Cod-liver Oil, as the greatest of modern remedies, would, ere now, have been ruined by the vile imitations passed off upon the unsuspecting, had not this pure, fresh, and incomparable article, prepared and sold under the guarantee of respectable parties, rescued it from obloquy. Remembering this, be certain that you have the genuine LANMAN & KEMP'S COD-LIVER OIL, sold by first class druggists in all countries.

VITIS. VITÆ.
SARSAPARILLIAN,
1 BETTER THAN 10.

A NEW PRINCIPLE DISCOVERED.
R. R. R.
RENOVATING RESOLVENT
CONTAINS SARSAPARILLIAN, THE ACTIVE PRINCIPLE OF SARSAPARILLA!

DR. RADWAY HAS RECENTLY DISCOVERED A new process for obtaining the extractive substances of medicinal roots, barks, plants, &c., whereby only the pure and active properties are obtained, from which RADWAY'S RENOVATING RESOLVENT, READY RELIEF, AND REGULATING PILLS are prepared.

One bottle or box of these remedies, prepared under the new process, contains more of the true principle of cure than is secured by 10 of the largest size bottles of Sarsaparillas, Pain Killers, or Pills in general use.

RADWAY'S RESOLVENT

"Is composed of Sarsaparillian" (the only part of Sarsaparilla Root containing medicinal properties), Hemodesmus Indicus, Lexival Fuci, Taracum, and other vegetable extracts (prepared in vacuo) so harmoniously associated that it secure. The most perfect remedy for purifying the blood, Resovingl away Diseased Deposits, Glandular Swellings, Curing Chronic, Scrofulous, and Syphilitic Diseases; Dissolving Calculous Concretions, Stone in the Bladder and Kidneys; insuring every Man, Woman and Child who uses it "Beauty, pure Blood, and the vigor of life."

So swift is the resolvent in entering into the circulation that it can be detected in the Blood, Urine, and Sweat in ten minutes after it has been taken 1.

Fair complexion, clear skin free from all Eruptions, Tetters, Rash, Pimples, Blotches, Pustules, Black Spots, Worms, Scurf, and Sores of the Scalp, &c., &c., cured by a few doses, of tow teaspoonfuls, three times a day.

Salt Rheum, Ring Worm, Humors, Tumors, Glandular Swellings, Strumuxes, Discharges from the Ears, Sore Eyes, Chronic Diseases, Venereal Sores, Syphilis, and all Syphiloid forms of disease, Scorbutic Affections, Rickets, Softning of the Bones, Ulcers, and all corruption expelled from the system by a few bottles.

Calculous Concretions, Bad Habit of Body, Kidney, Blandder, and Urinary diseases, Leucheras Suppressions, Bloodlessnes, cured rapidly by the R. R. Resolvent.

A GREAT SENSATION! A GOOD SENSATION!
PAIN CURED IN AN INSTANT.

In 1847, the great grand principle of stopping the most excruciating pain in an instant, without employing such dangerous agents as Chloroform, Opium, Morphine, Aconite, Ether, &c., was first made known in

RADWAY'S READY RELIEF.

This remedy accomplished this wonderful desiratum in all cases of external and internal pain In an instant it afforded relief; the moment it was applied to the parts of the body where inflammation or pain existed, it at once relieved the patient of the most violent and excruciating pangs and throbs of pain, and imparted the delightful sensation of ease and comfort.

Every kind of pain, whether Rheumatism, Neuralgia, Influenza, Sore Throat, Nervous Headache, Toothache, Pains in the Chest, Side, Lungs, Stomach, Bowels, Kidneys, Spine, Legs, Arms, Feet, one application was sufficient to cure and exterminate the pain.

Taken internally, 20 drops to a teasponful would cure, and will cure. Fever and Ague, Chills and Fever, Bilious Colic, Inflamation of the Bowels, Cramps, Spasms, Diarrhea, Dysentery, and every pain that may exist in the inside a man, woman, or child. This was Radway's Ready Relief of 1867, and it is Radway's Ready Relief, greatly improved, in 1868.

We then started it in its mission of relieving the infirm, pain-stricken, sick, distressed, and crippled of all nations throughout the world, and now to-day it is used, patronized, and reserved as a household necessity in the places of Sultans, Emperors, Kaimos, Kings, High Priests, Nobles, as well as in the cottages of the laboring classes of very nation on the face of the earth.

DR. RADWAY'S PILLS.

COATED WITH SWEET GUM
PURGE, REGULATE, PURIFY, CLEANSE, and STRENGTHEN.
FOR THE CURE OF

All Disorders of the Stomach, Liver, Bowels, Kidneys, Bladder, Nervous Diseases, Headache, Constipation, Costiveness, Indigestion, Dyspepsia, Biliousness, Fever, Inflammation of the Bowels, Piles, and all Derangements of the internal Viscera

WARRANTED TO EFFECT A POSITIVE CURE
PURELY VEGETABLE.
CONTAINING no MERCURY, MINERAL, OR DELETERIOUS DRUGS.

Pain in the Side, Chest, Limbs, and Sudden Flushes of Heat, Burning in the Flesh.

A few doses of RADWAY'S PILLS will free the System from all of the above-named disorders.

SAVINGS BANK.
BANK MAUA AND CO.
101--Cangallo--103.
BUENOS AYRES.

The immense advantages of Accounts Current are now so generally felt and appreciated in the two great emporiums of the River Plate, Montevideo and Buenos Ayres, that there are very few Merchants who fail to keep one at the bank in which they place the most confidence.

The Bank of Mauà & Co. in Montevideo has already provided for the working classes in that city a safe and profitable depositary for their savings.

The sums deposited in that very important institution are daily increasing, and already reach a very large amount.

These advantages have not hitherto been enjoyed in this city by an immense number of clerks, artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need, sickness, or old age, instead of spending them in the immoral gambling, in lotterica, and other frivolities.

The Bank of Mauà & Co. of this city, following the noble example of their firm in Montevideo, now offer the same facilities in this city, and has opened a Savings Bank at No. 103 Calle Cangallo from Nine a.m. till Three p.m. every day, for the reception of the savings of the classes alerady mentioned, Sundays and holidays excepted.

The Bank will deliver to each depositor a pass book, in which will be entered the amount deposited and withdrawn.

The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interest will be calculated up to date.

The Bank of Mauà & Co. is sufficiently known to the Public by the benefit derived from the course of its operatious, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare.

The Bank of Mauà & Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighborhood.

Buenos Ayres, 2nd January, 1867.

P.P. MAUA & Co.,
M. A. DE FREITAS AMORIM.

CONDITIONS.

First—The Bank receives at interest any sum from Twenty-five Dollars currency or one Silver Dollar upwards.

Second—The interest allowed is six per cent. (6 p.%) per annum, which is liquidated every six months.

Third—The depositors can at any time retire the whole or part of the money deposited.

Fourth—Once the money deposited exceeds twenty-five thousand dollars currency, or one thousand dollars silver, the depositor, if he wishes can open an account current, according to the rules established by the Bank.

Fifth—In case the depositor loses his pass book it can be replaced by another on paying twelve dollars currency, and advertising the loss in the public newspapers.

HEALTH! QUINTA! HEALTH!—ON the Lomas de Zamora, distant about two squares from the Bursaco Station, there is now to be sold the well-known House and its adjoining Lands, called the Almacen del Vapor. The land comprises twenty squares, with five squares of frontage to the main road and Railway. The house is a solidly-built brick edifice, built like a town residence, and contains six rooms, kitchen and closet. A part of the land is under wires fencing, alfalfa, and choice fruit trees. For further particulars apply at No. 95 Calle Potosi.

VITIS, VITÆ.
SARSAPARILLIAN,

1 BETTER THAN 10.

A NEW PRINCIPLE DISCOVERED.
R. R. R.
RENOVATING RESOLVENT
CONTAINS SARSAPARILLIAN, THE ACTIVE PRINCIPLE OF SARSAPARILLA!

DR. RADWAY HAS RECENTLY DISCOVERED A new process for obtaining the extractive substances of medicinal roots, barks, plants, &c., whereby only the pure and active properties are obtained, from which RADWAY'S RENOVATING RESOLVENT, READY RELIEF, AND REGULATING PILLS are prepared.

One bottle or box of these remedies, prepared under the new process, contains more of the true principle of cure than is secured by 10 of the largest size bottles of Sarsaparillas, Pain Killers, or Pills in general use.

RADWAY'S RESOLVENT

"Is composed of Sarsaparillian" (the only part of Sarsaparilla Root containing medicinal properties), Hemedesmus Indicus, Lexival Fuci, Taracum, and other vegetable extracts (prepared in vacuo) so harmoniously associated that it accure. The most perfect remedy for purifying the Blood, Resovingl away Diseased Deposits, Glandular Swellings, Curing Chronic, Scrofulous, and Syphilitic Diseases; Dissolving Calculous Concretions, Stone in the Bladder and Kidneys; insuring every Man, Woman and Child who uses it "Beauty, pure Blood, and the vigor of life."

So swift is the resolvent, in entering into the circulation that it can be detected in the Blood, Urine, and Sweat in ten minutes after it has been taken 1.

Fair complexion, clear skin free from all Eruptions, Tetters, Rash, Pimples, Blotches, Pustules, Black Spots, Worms, Scurf, and Sores of the Scalp, &c., &c., cured by a few doses, of tow teaspoonfuls, three times a day.

Salt Rheum, Ring Worm, Humors, Tumors, Glandular Swellings, Strumuxes, Discharges from the Ears, Sore Eyes, Chronic Diseases, Venereal Sores, Syphilis, and all Syphiloid forms of disease, Scorbutic Affections, Rickets, Softning of the Bones, Ulcers, and all corruption expelled from the system by a few bottles.

Calculous Concretions, Bad Habit of Body, Kidney, Blandder, and Urinary diseases, Leuchrean, Suppressions, Bloodlessnes, cured rapidly by the R. R. Resolvent.

A GREAT SENSATION! A GOOD SENSATION!

PAIN CURED IN AN INSTANT.

In 1847, the great grand principle of stopping the most excruciating pain in an instant, without employing such dangerous agents as Chloroform, Opium, Morphine, Aconite, Ether, &c., was first made known in

RADWAY'S READY RELIEF.

This remedy accomplished this wonderful desiratum in all cases of external and internal pain In an instant it afforded relief; the moment it was applied to the parts of the body where inflammation or pain existed, it at once relieved the patient of the most violent and excruciating pangs and throbs of pain, and imparted the delightful sensation of ease and comfort.

Every kind of pain, whether Rheumatism, Neuralgia, Influenza, Sore Throat, Nervous Headache, Toothache, Pains in the Chest, Side, Lungs, Stomach, Bowels, Kidneys, Spine, Legs, Arms, Feet, one application was sufficient to cure and exterminate the pain.

Taken internally, 20 drops to a teasponful would cure, and will cure. Fever and Ague, Chills and Fever, Bilious Colic, Inflamation of the Bowels, Cramps, Spasms, Diarrhea, Dysentery, and every pain that may exist in the inside a man, woman, or child. This was Radway's Ready Relief of 1867, and it is Radway's Ready Relief, greatly improved, in 1868.

We then started it in its mission of relieving the infirm, pain-stricken, sick, distressed, and crippled of all nations throughout the world, and now to-day it is used, patronized, and reserved as a household necessity in the places of Sultans, Emperors, Kaimos, Kings, High Priests, Nobles, as well as in the cottages of the laboring classes of very nation on the face of the earth.
